iClima Global Decarbonisation Enablers UCITS ETF - Acc

Factsheet | Data as of 31 Mar 2021

Investment Objective

iClima Global Decarbonisation Enablers UCITS ETF (CLMA), is a UCITS compliant Exchange Traded Fund domiciled in Ireland. The fund tracks an Index designed to measure the performance of a global investable universe of publicly listed companies involved in the enablement of CO2e avoidance. The index includes securities from five subsectors including green energy, green transportation, water and waste improvements, decarbonisation enabling solutions and sustainable products.

Why CLMA?

Pure focus on carbon avoidance

CLMA's focus is on the companies that directly enable carbon avoidance in order to reach climate change goals, unlike other ESG or climate change products that might focus on companies reducing their own carbon footprint or lack quantification of potential carbon avoidance.

Regulation and market forces driven mega-trend

Climate change and the transition to a low carbon economy is one the largest megatrends of the 21st century. Green investments are largely being fuelled by a combination of climate change supportive regulatory changes such as the 2015 Paris Agreement and new consumer-based preferences such as veganism, ridesharing, and electric vehicles.

Balanced and diversified exposure to climate change solutions

CLMA provides balanced exposure to companies providing climate change solutions from five sub-sectors including green energy, green transportation, water and waste improvements, decarbonisation enabling solutions and sustainable products. Each company is capped at 2%, to remove over-exposure to large cap companies.

Key Risks

1. The Fund and the companies in which it invests may be subject to a higher degree of regulatory oversight and regulatory action, which may include a restriction on the types of companies that the Fund may invest in at any time.
2. The Fund may use FDI and hold collective investment schemes and engage in securities lending and receive collateral which may not comply with the screening criteria applied by the Index Sponsor.
3. Investors capital is fully at risk and investors may not get back the amount originally invested.
4. Exchange rate fluctuations could have a negative or positive effect on returns.
5. The value of equities and equity-related securities can be affected by daily stock and currency market movements.
6. Further risks are disclosed in the KIID and Prospectus

Index Information

iClima Global Decarbonisation Enablers Index (the Index). The Index is governed by a published, rules-based methodology and is designed to measure the performance of a global investable universe of publicly listed companies involved in the enablement of CO2e avoidance. The Index includes securities from sectors that are focused on the enablement of CO2e avoidance, including green energy, green transportation, water and waste improvements, decarbonisation enabling solutions and sustainable products.

Performance and Volatility Indicators (USD)

Period	Return	Volatility
2018	-14.40%	12.77%
2019	31.91%	11.99%
2020	83.38%	30.16%
2021	4.10%	25.41%

*Index data up to the 02/12/2020. Fund data from 03/12/2020

Performance before inception is based on back tested data. Back testing is the process of evaluating an investment strategy by applying it to historical data to simulate what the performance of that strategy would have been. Back tested data does not represent actual performance and should not be interpreted as an indication of actual or future performance. Past performance for the index is in USD and shown net of fees. Past performance and back tested index performance is not an indicator for future results and should not be the sole factor of consideration when selecting a product. It is provided for illustrative purposes only. Indices cannot be invested in directly. Investors should read the prospectus of the Issuer ("Prospectus") before investing and should refer to the section of the Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in this product. IMPORTANT INFORMATION This factsheet is approved for professional use only.

COMMUNICATIONS ISSUED IN THE EUROPEAN ECONOMIC AREA ("EEA")

The content in this document is issued by HANetf Management Limited ("HML") acting in its capacity as management company of HANetf ICAV. HML is authorised and regulated by the Central Bank of Ireland. HML is registered in Ireland with registration number 621172.

COMMUNICATIONS ISSUED IN THE UK

The content in this document is issued by HANetf Limited ("HANetf"), an appointed representative of Mirabella Advisers LLP, which is authorised and regulated by the Financial Conduct Authority (FCA FRN 606792). HANetf is registered in England and Wales with registration number 10697042.

This communication has been prepared for professional investors, but the Exchange Traded Funds ("ETFs") set out in this communication may be available in some jurisdictions to any investors. Please check with your broker or intermediary that the relevant ETF is available in your jurisdiction and suitable for your investment profile.

Past performance is not a reliable indicator of future performance. The price of the ETFs may vary and they do not offer a fixed income.

This document may contain forward looking statements including statements regarding our belief or current expectations with regards to the performance of certain assets classes. Forward looking statements are subject to certain risks, uncertainties and assumptions. There can be no assurance that such statements will be accurate and actual results could differ materially from those anticipated in such statements. Therefore, readers are cautioned not to place undue reliance on these forward-looking statements.

The content of this document does not constitute an investment advice nor an offer for sale nor a solicitation of an offer to buy any product or make any investment. An investment in an exchange traded product is dependent on the performance of the underlying asset class, less costs, but it is not expected to track that performance exactly. The ETFs involve numerous risks including among others, general market risks relating to underlying adverse price movements in an Index or underlying asset class and currency, liquidity, operational, legal and regulatory risks.

The information contained on this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of securities in the United States or any province or territory thereof, where HANetf ICAV or their ETFs are authorised or registered for distribution and where no prospectus of HANetf ICAV has been filed with any securities commission or regulatory authority. No document or information on this document should be taken, transmitted or distributed (directly or indirectly) into the United States. HANetf ICAV, nor any securities issued by it, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes.

HANetf ICAV is an open-ended Irish collective asset management vehicle issuing under the terms in the Prospectus and relevant Supplement approved by the Central Bank of Ireland ("CBI") ("Prospectus") is the issuer of the ETFs. Investors should read the current version of the Prospectus before investing and should refer to the section of the Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in the ETFs. Any decision to invest should be based on the information contained in the Prospectus.

The Prospectus can all be downloaded from www.hanetf.com.
