BCHetc – ETC Group Physical Bitcoin Cash

Factsheet | Data as of 31 Oct 2021

## Investment Objective

BCHetc – ETC Group Physical Bitcoin Cash (BTCH) is an exchange traded cryptocurrency (ETC) that tracks the price of Bitcoin Cash. Each Bitcoin Cash ETC is 100% physically backed by Bitcoin Cash, and trades on European exchanges, providing investors with a safer and liquid way to gain exposure to the cryptocurrency. Each unit of BTCH gives the holder a claim on a predefined amount of the cryptocurrency with the possibility of physical delivery. BTCH is issued by ETC Group and marketed and distributed by HANetf.

## Why BTCH?

### An easier way to invest in Bitcoin Cash

Investing in the BTCH Bitcoin Cash ETC involves buying shares through your broker or bank. Unlike investing directly in Bitcoin Cash, there is no need to engage with the technical challenges of setting up a cryptocurrency wallet to store it. Investors only need a cryptocurrency wallet if they wish to redeem BTCH for the underlying cryptocurrency. Your units of BTCH are easily added to your portfolio and safely held with your broker or bank.

### Invest in Bitcoin Cash on a regulated exchange

BTCH's primary listing is traded on Deutsche Börse Xetra, one of Europe's largest ETF trading venues. Investors can trade with confidence knowing that all market participants are strictly vetted and carefully monitored to prevent market abuse unlike cryptocurrency exchanges, many of which are unregulated. The issuer has partnered with world-class liquidity providers to ensure ample on exchange liquidity and tight spreads.

### Safe Custody

The issuer stores the Bitcoin Cash with BitGo Trust Company, a secure, regulated custodian, purpose built for holding digital assets. Strict KYC and AML standards of the APs ensure that the provenance of all cryptocurrency in custody has been vetted.

## Key Risks

1. Cryptocurrencies can be highly volatile. Investors' capital is at risk and investors may not get back the amount originally invested and should obtain independent advice before making a decision.
2. Any decision to invest should be based on the information contained in the relevant prospectus.
3. ETC securities are structured as debt securities, not as equity.
4. ETCs trade on exchanges like securities. They are bought/sold at market prices which may be different to the net asset value of the ETC.
5. This is a marketing communication. Please refer to the prospectus and to the KIID before making any final investment decisions.
