Investment in the Sub-Fund is suitable for investors seeking capital growth over the long term.

The Sub-Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with the investment objective and policy set out below. Investors should be informed investors and have taken professional advice in relation to their ability to bear capital and income risk. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Sub-Fund are expected to be investors who want to take exposure to the markets covered by the Index and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

### General

This Supplement sets out information in relation to the Shares and the Sub-Fund. You must also refer to the Prospectus which is separate to this document and describes the ICAV and provides general information about offers of shares in the ICAV. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

An application has been made to Euronext Dublin for the Shares of the Sub-Fund issued and available for issue, to be admitted to listing on the Official List and trading on the regulated market of Euronext Dublin. It is expected that admission will become effective on or about the date of this Supplement. This Supplement together with the Prospectus dated 1 April 2019 includes all information required to be disclosed by Euronext Dublin listing requirements and comprise listing particulars for the purpose of listing of such Shares of the Sub-Fund on Euronext Dublin.

Neither the admission of Shares of the Sub-Fund to listing on the Official List and to trading on the regulated market of Euronext Dublin nor the approval of the listing particulars pursuant to the listing requirements of Euronext Dublin shall constitute a warranty or representation by Euronext Dublin as to the competence of service providers to or any other party connected with the Sub-Fund, the adequacy of information contained in the listing particulars or the suitability of the Sub-Fund for investment purposes.

As of the date of this Supplement, the ICAV does not have any loan capital (including term loans) outstanding or created but unissued and no outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities.

### Suitability of Investment

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section entitled **Risk Factors** of the Prospectus and the section entitled **Risk Factors** of this Supplement for a discussion of certain risks that should be considered by you.

An investment in the Shares is only suitable for you if you are a sophisticated investor and (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment.

### **Distribution of this Supplement and Selling Restrictions**

The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the ICAV has already complied. If you wish to apply for the opportunity to purchase any Shares it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

## **2 INVESTMENT MANAGER**

The Manager has appointed **Vident Investment Advisory LLC** as investment manager for the Sub-Fund (the **Investment Manager**) with a discretionary mandate pursuant to an investment management agreement dated 29 March 2019 between the Manager and the Investment Manager (the **Investment Management Agreement**) described under the heading **Material Contracts** below.

Under the terms of the Investment Management Agreement, the Investment Manager provides, subject to the overall supervision and control of the Manager, investment management services to the Manager in respect of the Sub-Fund's portfolio of assets. It may delegate all or part of the investment management responsibilities to one or more sub-investment managers, may obtain the services of investment advisers on a non-discretionary basis and may obtain third party research advice with the fees in respect of any such delegation being paid by the Investment Manager out of its own fee.

## **3 INVESTMENT OBJECTIVE AND POLICIES**

### **3.1 Investment objective**

The investment objective of the Sub-Fund is to track the price and the performance, before fees and expenses, of an index that measures the performance of large, mid and small-capitalisation companies incorporated in Kuwait and listed on the premier or main market of the Kuwait Stock Exchange.

### **3.2 Investment policy**

In order to seek to achieve its investment objective, the Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the FTSE Kuwait All Cap 15% Capped Index (the **Index**). **In order to replicate the Index, this Sub-Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer when exceptional market conditions apply.**

It is not expected that the Sub-Fund will invest more than 20% in a single issuer, however, this may arise in circumstances where smaller Index constituents fail to meet the liquidity criteria set out under **General Description of the Index** below or are subject to a consolidation with another constituent company.

The Sub-Fund may, from time to time, use a sampling methodology under various circumstances, including when it may not be possible or practicable to purchase all of the securities in the Index, for example, due to lot

size issues or local market restrictions which may apply in certain emerging or frontier markets. Where certain securities trade in fixed lot sizes, the Sub-Fund may not hold such securities in proportion to the weightings of the Index.

The Investment Manager will regularly monitor the Sub-Fund's tracking accuracy. Information relating to the anticipated tracking error is set out in the section entitled **Tracking of Index** below.

Further details in relation to the investment approach and the optimisation and sampling methodology to be employed are set out in the section entitled **Optimised Index Replication** in the Prospectus.

The Sub-Fund may invest in ancillary liquid assets and money market instruments which may include bank deposits, certificates of deposit, commercial paper, floating rate notes and freely transferable promissory notes.

Investors should also note that the Sub-Fund may invest in ETFs established as collective investment schemes and authorised as UCITS in pursuit of its investment objective, subject to the investment restrictions outlined in the Prospectus.

The ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) held by the Sub-Fund will be listed or traded on the Regulated Markets referred to in Appendix 1 of the Prospectus.

### 3.3 **Use of financial derivative instruments and efficient portfolio management**

Investors should note that the Sub-Fund may also invest in FDIs for efficient portfolio management or hedging purposes. The Sub-Fund may use futures, currency swaps and currency forwards for the purpose of reducing risk associated with currency exposures within the Sub-Fund. This may on occasions lead to an increase in the risk profile of the Sub-Fund or result in a fluctuation in the expected level of volatility. Please see the section entitled **Risk Factors** in the Prospectus in relation to such risks.

The Sub-Fund will employ the commitment approach to assess the Sub-Fund's global exposure and to ensure that the Sub-Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Sub-Fund may be leveraged through the use of the FDIs, any such leverage would not be expected to be in excess of 100% of the Sub-Fund's Net Asset Value. Including FDI's, the total exposure associated with the investments of the Sub-Fund, may not exceed 200% of the Net Asset Value of the Sub-Fund.

Investment in FDIs is subject to the conditions and limits contained in the Central Bank UCITS Regulations issued by the Central Bank. Subject to these limits, the Sub-Fund may invest in FDIs dealt on any of the regulated markets set out in the list of Regulated Markets in Appendix 1 to the Prospectus (and/or over the counter FDIs (OTCs)) which will be used for investment, efficient portfolio management and/or for hedging purposes.

The ICAV employs a risk management process which enables it to accurately measure, monitor and manage at any time the various risks associated with FDIs and their contribution to the overall risk profile of the portfolio of assets of the Sub-Fund. The ICAV will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. The Sub-Fund will only invest in FDIs in accordance with the risk management policy filed with the Central Bank.

The Sub-Fund may invest in FDIs dealt over-the-counter provided that the counterparties to over-the-counter transactions are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

Position exposure to the underlying assets of FDIs, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank UCITS Regulations.

Please see the section entitled **Use of Financial Derivative Instruments and Efficient Portfolio Management** in the Prospectus in relation to FDI.

### 3.4 **Securities financing transactions**

While the ICAV may enter into Securities Financing Transactions, it is not anticipated that the Sub-Fund will enter into any Securities Financing Transactions. However, in the event that the Sub-Fund contemplates entering into such transactions, investors will be provided with further details of the structure and use of such transactions, together with any other information required to be disclosed to investors in accordance with Articles 13 and 14 of the SFTR. The Supplement will be updated accordingly in the event that the Sub-Fund will enter into any Securities Financing Transactions.

## 4 **PORTFOLIO TRANSPARENCY**

Information about the Investments of the Sub-Fund shall be made available on a daily basis. The Sub-Fund will disclose on [www.HANetf.com](http://www.HANetf.com) at the start of each Business Day the identities and quantities of the securities and other assets held by it. The portfolio holdings will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day.

## 5 **TRACKING OF INDEX**

The anticipated tracking error of the Sub-Fund is not a guide to its future performance. The annualised tracking error envisaged is not anticipated to exceed 2% under normal market conditions.

Further information on the anticipated tracking error is set out in the section entitled **Tracking of Index** in the Prospectus.

## 6 **INFORMATION ON THE INDEX AND INDEX PROVIDER**

This section is a brief overview of the Index. It contains a summary of the principal features of the Index and is not a complete description of the Index. In case of inconsistency between the summary of the Index in this section and the complete description of the Index, the complete description of the Index prevails. Information on the Index appears on the website identified below in **Further Information**. Such information may change from time to time and details of the changes will appear on that website.

### **General Description of the Index**

The Index is governed by a published, rules-based methodology of the FTSE Global Equity Index Series (**GEIS**) and is designed to measure the performance of an investable universe of publicly-traded companies incorporated in Kuwait and listed on the premier or main market of the Kuwait Stock Exchange and also form part of GEIS [http://www.ftse.com/products/downloads/FTSE\\_Global\\_Equity\\_Index\\_Series.pdf](http://www.ftse.com/products/downloads/FTSE_Global_Equity_Index_Series.pdf) (the **Regional Universe**).

Companies eligible for inclusion in the Regional Universe must:

- i. include publicly issued common equity securities, in the form of shares tradable by foreign investors without restrictions and with a listing on the premier or main market of the Kuwait Stock Exchange;
- ii. be subject to the lesser of (i) a free-float adjusted market capitalisation of at least 5% and (ii) the applicable foreign ownership limits (FOL)\*, at the time of inclusion in the Index; and

\* Private Bank Sector: 49%

\* Public Bank Sector: 20%

\*Others: 24%

iii. meet the following liquidity criteria:

- (a) existing GEIS constituent securities will continue to be considered as a constituent following a country reclassification. As such, based on a constituent's median daily trading volume per month, it must turnover at least 0.04% (0.02% for micro-capitalisation stocks) of its shares in issue (after the application of any free float weightings) for at least 8 of the 12 months prior to a full market review;
- (b) non-constituent securities, must turnover at least 0.05% (0.025% for micro-capitalisation stocks) of their shares in issue, based on the constituent's median daily trading volume per month for at least 10 of the 12 test period months prior to a full market review; and
- (c) new issues with less than 12 months trading record must have a minimum of 3 months trading record on the review date and must turnover at least 0.05% (0.025% for micro-capitalisation stocks) of their shares in issue based on the constituent's monthly trading volume since listing.

Non-constituent securities are securities that are not currently constituents of the Index but meet the liquidity criteria at the relevant Rebalance Day.

### Selection Process

The index universe is determined by ranking the constituents by full market capitalisation in descending order and calculating the cumulative market capitalisations of all stocks in the Regional Universe and their relevant weights. The top 98% of the Regional Universe will be selected and forms the index universe (the **Index Universe**).

A full 12-month periodic liquidity test is conducted annually in March and September based on constituent data as at the close of business on the last business day of December and June. Any resulting constituent changes resulting from the periodic review will be implemented after the close of business on the third Thursday of March and September.

To reduce turnover during the review process, existing and potential constituents shall be subject to a series of buffer zones to determine their eligibility for inclusion or exclusion as follows:

Turnover Bands (based on the Index Universe)		
	Eligible for Inclusion	Eligible for Exclusion
Large Capitalisation	68%	72%
Mid Capitalisation	86%	92%
Small Capitalisation	98%	101%

Small Capitalisation companies shall be included where their market capitalisation weights are 1.0% or greater of the FTSE Middle East & Africa Small Capitalisation Index but shall be excluded if their weights are 0.20% or less.

Large Capitalisation constituents will remain classified as Large Capitalisation if they fall within the top 72% of the Index Universe. If they are ranked between 72% and 92% of the Index Universe, they will move to the Mid Capitalisation. If they are ranked between 92% and 101% of the Index Universe, they will move to the Small Capitalisation classification. If they are ranked below 101% (i.e. between 98% to of 101%) of the Index Universe by full market Capitalisation or have a weight less than 0.20%, they will be excluded from the index.

Mid Capitalisation constituents will move to the Large Capitalisation if they fall within the top 68% of the Index Universe. If they are ranked between 68% and 92% of the Index Universe, they will remain in the Mid Capitalisation classification. If they are ranked between 92% and 101% of the Index Universe, they will move to the Small Capitalisation. If they are ranked below 101% of the Index Universe by full market capitalisation or have a weight less than 0.20%, they will be excluded from the index.

Small Capitalisation constituents will move to the Large Capitalisation if they fall within the top 68% of the Index Universe. If they are ranked between 68% and 86% of the Index Universe by full market capitalisation and have a weight greater than 0.04% of the current respective regional FTSE All-World Index Series by full market capitalisation they will move to the Mid Capitalisation. If they are ranked between 86% and 101% of the Index Universe or have a weight less than 0.04% of the current respective regional FTSE All-World Index Series by full market Capitalisation, they will remain in the Small Capitalisation. If they are ranked below 101% of the Index Universe by full market Capitalisation or have a weight less than 0.20%, they will be excluded from the Index.

Micro capitalisation constituents will move to the Large Capitalisation if they fall within the top 68% of the Index Universe. If they are ranked between 68% and 86% of the Index Universe by full market Capitalisation and have a weight greater than 0.04% of the current respective regional FTSE All-World Index Series by full market Capitalisation they will move to the Mid Capitalisation. If they are ranked between 86% and 98% of the Index Universe or have a weight less than 0.04% of the current respective regional FTSE All-World Index Series by full market Capitalisation, they will move to the Small Capitalisation. Micro capitalisation securities will be excluded from the Index if they have an investable market capitalisation of less than \$20,000,000 and one of the following is true:

- i. if following the index review the company sits inside the top 98% of the Index Universe by full market capitalisation; or
- ii. if following the index review, the security is greater than the Small Capitalisation inclusion level by investable market capitalisation or the company sits inside the top 92% of the Index Universe by full market capitalisation.

## **Weighting**

The selected companies are then ranked by their free float investable market capitalisation and the target weight for each constituent is determined according to the **Capping Rules** below.

## **Capping Rules**

For companies whose weights are greater than 15%, these are capped at 15% and the weight of all the lower ranked companies will increase proportionally. The weights of the lower ranked companies are reviewed and where they exceed 15%, they are also capped at 15%. The process is repeated until no constituent has a weight of greater than 15% and the weights of all the lower ranked companies will increase accordingly.

## **Rebalance**

Constituent changes resulting from the periodic review after the close of business on the second Thursday in March, June, September and December will be implemented on the third Thursday of March, June, September and December in each calendar year (the **Rebalance Day**).

The Index is calculated based on a total return methodology, both real time intra-second and end of day.

The Index has a base date of 21 September 2018 and a base value of 875.49 points.

FTSE International Limited (the **Index Administrator**) maintains the Index which includes monitoring and implementing any adjustments, additions and deletions to the Index based upon the Index methodology or certain corporate actions, such as initial public offerings, mergers, acquisitions, bankruptcies, suspensions, delistings, tender offers and spin-offs. The Index cannot be invested in directly.

## **Further Information**

Additional information on the Index can be found on [http://www.ftse.com/products/downloads/FTSE\\_Global\\_Equity\\_Index\\_Series.pdf](http://www.ftse.com/products/downloads/FTSE_Global_Equity_Index_Series.pdf).

## 7 INVESTMENT RESTRICTIONS

The general investment restrictions as set out in the Prospectus shall apply.

The Sub-Fund may not invest more than 10% of its Net Asset Value in open-ended collective investment schemes.

There may be instances where the weighting of any constituent security of the Index could cause the Sub-Fund to breach the investment restrictions set out in the Prospectus. If such an event occurs, it is intended that the Sub-Fund will purchase other assets, the effect of which will seek to maintain, so far as is possible, the same economic exposure to and the same weighting of the security of that issuer in the Index without breaching its investment restrictions.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders.

## 8 BORROWING

The Sub-Fund may borrow money in an amount up to 10% of the market value of its net assets at any time for the account of any Sub-Fund and the Depositary may charge the assets of the Sub-Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes.

The Sub-Fund may acquire currency by means of a back-to-back loan agreement. Foreign currency obtained in this manner is not classified as borrowing for the purposes of the UCITS Regulations provided that the offsetting deposit is denominated in the Base Currency of the Sub-Fund and equals or exceeds the value of the foreign currency loan outstanding.

## 9 RISK FACTORS

While the general risk factors set out in the section entitled **Risk Factors** in the Prospectus apply to the Sub-Fund, the following risk factors described in the Prospectus under the headings **Absence of prior active market, Capital Controls and Sanctions Risk, Concentration Risk, Emerging Market Risks, Currency Risk, Interest Rate Risk, Liquidity of Investments, Small- and Mid-Capitalisation Risk, Political and/or Legal/Regulatory Risk, Regulatory Restrictions, Index Rebalancing and Costs, Issuer-specific Risk and Financial Companies Risk** are particularly relevant for the Sub-Fund.

## 10 DIVIDEND POLICY

The Sub-Fund may issue Distributing Shares and Accumulating Shares. Where any Distributing Shares are issued, the Directors may declare dividends annually on or about December in each year to the Shareholders of such Shares out of the net income of the Sub-Fund attributable to the Distributing Shares, in accordance with the terms of the Prospectus. The profits attributable to the Accumulating Shares in the Sub-Fund shall be retained within the Sub-Fund and will be reflected in the Net Asset Value of the Accumulating Shares.
